

I am 57 years of age and have been lifting weights for over 40 years. Now I can enhance and optimize my supplements to get more out of them than before, not to mention the 22 pounds of weight I've lost.

About 12 years ago, I dropped a 45 lb. plate on the big toe of my right foot. It had developed arthritis and after taking x-rays, the Dr. at the V.A. said I would need an operation on my toe. After wrapping the 7-foot scan cable around my big toe for about an hour while watching TV (that's how simple it is), I woke up the next morning, with very little to no pain present and I was available to go back to the gym. Everyone should have ABPA. This machine is the second love of my life!!! H. U., San Francisco, CA

My son Andrew (10 years old) was diagnosed with mono one week prior to the first day of school. He was to start a brand new school, so it was bad timing for him to become so ill. The doctor expected him to be too sick to return to school for approximately three weeks. I immediately started him on the ABPA. I did not expect it to work so fast, but it really did.

Amazingly, Andrew was able to begin school on the very first day. His color began to return almost immediately after being put on the ABPA. When our doctor examined Andrew, he said he was very surprised at how quickly he had recovered (he didn't quite know what to make of it). We knew the ABPA had played a very big part in his recovery.

Thank you for sharing this wonderful piece of equipment with me. *Sincerely, J.L.*

## The Advanced Bio-Photon Analyzer

*Creating Counter-measures  
For dealing with stress.*

## Introducing the... Advanced Bio-Photon Analyzer

The Advanced Bio-Photon Analyzer Model (A2) is on the **cutting edge of technology** in the Holistic Energetic Care field today. Never before has one product offered such diversity - it's wide range of functions are specifically designed to provide harmony and balance to your body's energy field, enabling you to effectively reach and maintain a healthful, balanced state.

The ABPA provides you with a real advantage in combating many outside disturbances and helps you cope with the energy overload of modern day living and the stresses of life allowing you to concentrate on the things you want to accomplish!

## What Does the A2 Do?

- Helps to reduce the stress on your body's energetic system!
- Support and reinforce your body's natural balance for optimal health.
- Support the detoxifying of your body at a safe and gentle rate.
- Neutralize stressful energetic residue that may be contaminating our foods.
- Antidote and neutralize the energetic effects of chemicals and toxins in household products that may be weakening your body.  
(Ex: household cleaning products and personal hygiene items)
- Neutralize harmful energies in your living area and land, including sick buildings, water and soil.
- Helps to reduce the effects of electromagnetic field that may weaken your immune system.
- Customizing the energetic match of a homeopathic remedy.
- Create your own individual isopathic restorative structure in just 40 seconds.

The ABPA effectively reduces the negative effects of offensive substances our bodies are exposed to, therefore reducing the stress on our total system. This process allows our body to spend more of its energy promoting good health, instead of spending energy dealing with substances that are causing imbalances. Plus, the additional support and features of the ABPA help to strengthen the body even more! By reducing the amount of stress placed on the body studies have shown the results and findings are decreased illness, reduced allergic reactions, increased energy and an overall feeling of well-being. It's exactly what so many of us have been looking for!

Many health care professionals are presently using the ABPA in their practice for reducing stress and with great success.

## How does the A2 do this?

The ABPA (A2) helps to bring a weakened state up to the parameters of good health and balance by creating an energetic signal exactly opposite to the one that's stressing your body (called a isopathic restorative structure). No complicated dials or settings needed for such an easy process!

The isopathic restorative structure signal from the ABPA (A2) compensates for the stress on the energy field of your body and helps to eliminate the stressful negative effect - this gives you back your energy and counters the stress that may be creating imbalance in your body.

The ABPA makes stable optically charged isopathic imprints, not magnetic sensitive homeopathic.

## Testimonials

The day after I purchased my first Advance Bio-Photon Analyzer (I now own six units), our perfectly healthy, three-year-old cat went completely blind. After running a series of tests, our vet said that he sees about six cases a year of this disease. He said the cause is unknown, and there is no known cure.

Our options were to put her to sleep, or get used to living with a blind cat. We didn't care for those two options, so we took a Polaroid photo of the cat and placed it in the Advance Bio-Photon Analyzer. Four days later, her vision was perfect again. The vet said it was a miracle...we think so too! Since then, we have seen many more miracles. We would not be without our Advance Bio-Photon Analyzers. *J.W., Wisconsin*

My daughter, while a senior in High School, had terrible migraine headaches, was depressed, very negative and a D student. Now, thanks to the ABPA, she is a B student in college, smiles a lot, and is very positive about the future. Plus, her migraines are gone! *P.M. CA*

I have worked with several types of energy machines for enhancing my health over the last 7 years, but none has compared to the Advance Bio-Photon Analyzer
